Pitney Bowes Software Europe – Confirm ETON Compliance

Dear Angela,

As per your request with regard to Peterborough City Council, please note that there is not an industry recognised certification for ETON compliance but we can provide the following;

Pitney Bowes Software Europe Ltd. is and remains a founding member of the ETON Developers group. As such Confirm, our national & globally recognised intelligent asset management software which forms our proposal is NRSWA and ETON compliant and is used to manage 45% of the UK's City, County and London Borough Highway authorities.

Our ongoing strategy and roadmap refers to the legislative requirement of NRSWA and ETON and the strategic direction of DfT. Future compliance remains a priority for us and our customers – as such we are often first to market with compliant software in advance of the required dates, for example with ETON 6.

I hope this provide satisfactory levels of confidence regarding our compliancy and commitment to NRSWA and ETON within our roadmap for Confirm.

Yours faithfully

A handwritten signature in black ink, appearing to read 'SH' or similar initials.
